

### ***Goode Multi-Vehicle Screen Invention In Search of Licensee***

An innovative and effective new product designed to provide convenience when outdoors in one's vehicle, the ***Goode Multi-Vehicle Screen***, has been developed by Derik Goode of Madera, California. The invention's unique design provides its users with a way to shield themselves from pests while in their vehicles with their windows lowered.

Depending on the type of climate one lives in, taking a ride down the street or highway with natural fresh air as the source of ventilation can be quite relaxing and enjoyable. When the vehicle comes to a stop however, pests and other debris can quickly make their way into the car and become a considerable nuisance for. This often leaves drivers and passengers with little choice but to shield themselves by keeping their windows up at all times, depriving them of partaking in what might be beautiful weather.

In an effort to address these types of problems, the ***Goode Multi-Vehicle Screen*** has been developed. The ***Goode Multi-Vehicle Screen*** attaches easily and securely to vehicle windows. The product will be easy to remove and reattach as necessary. Additionally, the ***Goode Multi-Vehicle Screen*** will eliminate the hassle of mosquitoes and other pests while one is enjoying fresh air. The product will also be completely unobtrusive to functions, such as opening and closing a door or rolling a window up or down, and will be designed to work with a wide variety of vehicle types.

The inventor has also developed a prototype of the ***Goode Multi-Vehicle Screen*** that he has used with success.

Mr. Goode now seeks a third party licensee to manufacture, market, and distribute the product for him under a royalty agreement. Potential licensees in the automotive accessories industry are currently being targeted as candidates to commercialize the ***Goode Multi-Vehicle Screen*** on a worldwide basis.

In April 2012, Mr. Goode contracted Miami, Florida-based product management services leader Innovation Direct™ to represent the ***Goode Multi-Vehicle Screen*** to potential licensees for a 2 year period. Innovation Direct™ obtains the maximum amount of exposure for the products that it represents through its unique and patented licensing methodology and its participation in multiple and diverse industry-leading trade shows each year. Exhibits that Innovation Direct™ has attended in recent years include the SHOT Show, the International Home and Housewares Show, the National Hardware Show, Licensing International, the SEMA and AAPEX Shows and the ERA D2C Convention.

Potential licensees interested in obtaining more information about the ***Goode Multi-Vehicle Screen*** and discussing licensing opportunities with respect to the product can contact the Manufacturer Response Department of Innovation Direct™ at (877) 991-0909 ext. 4285 or at [MR@innovationdirectonline.com](mailto:MR@innovationdirectonline.com).
