

“Our Success is Patented™”

Combination Pill Dispenser Invention In Search of Licensee

An innovative new product designed to effectively address a common problem related to medications, the ***Combination Pill Dispenser***, has been developed by Clarence Boling, Jr. of Maryville, Tennessee. The invention's unique design helps insure that medication is only dispensed when needed and in the dosages prescribed.

The ***Combination Pill Dispenser*** will considerably curtail deadly incidents of prescription drug overdose. The product will also be easy to operate. Additionally, through its proprietary features, the ***Combination Pill Dispenser*** will help cut down on illegal pill and drug sales by a significant percentage. Furthermore, it will be made from durable materials and competitively priced, adding to its appeal.

Mr. Boling now seeks a third party licensee to manufacture, market, and distribute the product for him under a royalty agreement. Potential licensees in the personal medical accessories industry are currently being targeted as candidates to eventually commercialize the ***Combination Pill Dispenser*** on a worldwide basis.

In September 2013, Mr. Boling contracted Miami, Florida-based product management services leader Innovation Direct™ to represent the ***Combination Pill Dispenser*** to potential licensees for a 2 year period. Innovation Direct™ obtains the maximum amount of exposure for the products that it represents through its unique and patented licensing methodology and its participation in multiple and diverse industry-leading trade shows each year. Exhibits that Innovation Direct™ has attended in recent years include the SHOT Show, the International Home and Housewares Show, the World of Concrete Show, the National Hardware Show, Licensing International, the SEMA and AAPEX Shows and the ERA D2C Convention.

Potential licensees interested in obtaining more information about the ***Combination Pill Dispenser*** and discussing licensing opportunities with respect to the product can contact the Manufacturer Response Department of Innovation Direct™ at (877) 991-0909 ext. 4285 or at MR@innovationdirectonline.com.
