Rudd's Dump Drop Invention In Search of Licensee

An innovative new product designed to serve an important function in the management of waste in industrial areas, the ***Rudd's Dump Drop***, has been developed by Edward Rudd of Queen Creek, Arizona. The invention's unique design greatly simplifies the safe disposal of waste in industrial settings.

The ***Rudd's Dump Drop*** provides an efficient method for inserting excessively heavy waste into a dumpster. Additionally, its adjustable door can be dropped down or left up as needed by the user. Furthermore, the ***Rudd's Dump Drop*** prevents the potential injury and frustrations involved in attempting to insert items into a conventional dumpster door that is placed at a certain height and not adjustable. Moreover, the ***Rudd's Dump Drop*** eliminates the hassle and wasted time involved in cleaning up a mess stemming from not being able to hoist waste effectively into a dumpster. It will also be made from durable materials, making it a wise investment.

The ***Rudd's Dump Drop*** is also currently in Patent Pending status within the United States Patent and Trademark Office.

Mr. Rudd now seeks a third party licensee to manufacture, market, and distribute the product for him under a royalty agreement. Potential licensees in the industrial waste management accessories industry are currently being targeted as candidates to eventually commercialize the ***Rudd's Dump Drop*** on a worldwide basis.

In January 2014, Mr. Rudd contracted Miami, Florida-based product management services leader Innovation Direct™ to represent the ***Rudd's Dump Drop*** to potential licensees for a 2 year period. Innovation Direct™ obtains the maximum amount of exposure for the products that it represents through its unique and patented licensing methodology and its participation in multiple and diverse industry-leading trade shows each year. Exhibits that Innovation Direct™ has attended in recent years include the SHOT Show, the International Home and Housewares Show, the World of Concrete Show, the National Hardware Show, Licensing International, the SEMA and AAPEX Shows and the ERA D2C Convention.

Potential licensees interested in obtaining more information about the ***Rudd's Dump Drop*** and discussing licensing opportunities with respect to the product can contact the Manufacturer Response Department of Innovation Direct™ at (877) 991-0909 ext. 4285 or at MR@innovationdirectonline.com.
