“Our Success is Patented™”

Telepod Invention In Search of Licensee

An innovative new product designed to provide unparalleled quality of sound emitted from a cell phone, the **Telepod**, has been developed by Randy Domelle of Westlake, Ohio. The invention's unique design allows it to focus and provide considerable clarity to sound.

The **Telepod** serves as a secure and convenient holding receptacle for a cell phone during long conversations or while on hold. The product eliminates hand cramping and pain resulting from having to hold a phone for extended periods. Additionally, the **Telepod** features a lightweight and streamlined design. Furthermore, the **Telepod** is easy to utilize with virtually any cell phone currently on the market and essentially serves as an amphitheater for the phone. Moreover, it is made from durable materials and competitively priced, adding to its appeal and making it a wise investment.

The inventor of the **Telepod** has developed a working prototype that has been utilized with success. The **Telepod** is also in Patent Pending status within the United States Patent and Trademark Office.

Mr. Domelle now seeks a third party licensee to manufacture, market, and distribute the product for him under a royalty agreement. Potential licensees in the consumer electronics accessories industry are currently being targeted as candidates to eventually commercialize the **Telepod** on a worldwide basis.

In March 2014, Mr. Domelle contracted Miami, Florida-based product management services leader Innovation Direct™ to represent the **Telepod** to potential licensees for a 2 year period. Innovation Direct™ obtains the maximum amount of exposure for the products that it represents through its unique and patented licensing methodology and its participation in multiple and diverse industry-leading trade shows each year. Exhibits that Innovation Direct™ has attended in recent years include the SHOT Show, the International Home and Housewares Show, the World of Concrete Show, the National Hardware Show, Licensing International, the SEMA and AAPEX Shows and the ERA D2C Convention.

Potential licensees interested in obtaining more information about the **Telepod** and discussing licensing opportunities with respect to the product can contact the Manufacturer Response Department of Innovation Direct™ at (877) 991-0909 ext. 4285 or at MR@innovationdirectonline.com.
