

Slide-n-StoreTM Staple Remover

SLIDE-N-STORE Staple Remover

Discover the world's first staple-remover of its kind that removes standard staples easily and evenly without tearing documents and sends them packing into its container for safe disposal (the container holds over 300 staples). Slide-n-Store is small, ergonomic, efficient, handy, and durable!

Why the need for Slide-n-Store...?

Market surveys on staple removers have shown that consumer's major complaints are threefold:

- a) Frequent removal of staples from bound documents and car pets with fingers could cause injuries, because one end of the staple remains stuck in sheets.
- b) Torn or marred documents.
- c) Regular cleaning of desk and surrounding areas of scattered staples, which could cause costly equipment repairs and injuries to children and pets.

What are the advantages?

Slide-n-Store is the answer to everyone's needs, and it's easy to use! With Slide-n-Store in your hand there will be no more mess, injuries, broken nails, or torn documents. No fear of children or pets swallowing scattered staples.

How does Slide-n-Store function?

Users simply place Slide-n-Store's small tongue (Duratip™) under the staple crown and push all the way quickly and completely.

Slide-n-Store - an innovative tool.

Slide-n-Store is truly the world's first tool of its kind able to remove and store over 300 staples in its container. It is designed to make your work easier and safe! Ergonomic and carefully crafted, Slide-n-Store is made to last. The small tongue is made with space age plastic which is more durable and performs better than metal.

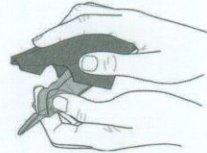

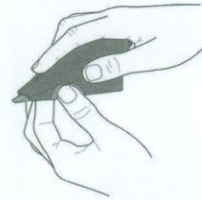

Slide-n-Store is what you need!

In today's rapidly changing office products market, the key to attain customer satisfaction and generate profits is through the introduction of new, patented products that fulfill customer's needs. Slide-n-Store is the first tool that really provides total satisfaction! It is also well suited to be used as a promotional item.
