

“Our Success is Patented™”

Remote Scope System Invention In Search of Licensee

An innovative new product targeted at those who use various firearms both professionally and for sport, the **Remote Scope System**, has been developed by Ray Carter of Hinesville, Georgia. The invention's unique design enables its users to adjust the zoom of rifle scopes with unparalleled ease.

The **Remote Scope System** makes target acquisition significantly more efficient and fast. The product promotes greater overall success when shooting by simplifying the entire process. Additionally, the **Remote Scope System** has a lightweight and streamlined design. Furthermore, it is easy to operate. Moreover, the **Remote Scope System** is made from durable materials and competitively priced, adding to its appeal and making it a wise investment.

The **Remote Scope System** is also in Patent Pending status within the United States Patent and Trademark Office.

Mr. Carter now seeks a third party licensee to manufacture, market, and distribute the product for him under a royalty agreement. Potential licensees in the firearms accessories industry are currently being targeted as candidates to eventually commercialize the **Remote Scope System** on a worldwide basis.

In February 2014, Mr. Carter contracted Miami, Florida-based product management services leader Innovation Direct™ to represent the **Remote Scope System** to potential licensees for a 2 year period. Innovation Direct™ obtains the maximum amount of exposure for the products that it represents through its unique and patented licensing methodology and its participation in multiple and diverse industry-leading trade shows each year. Exhibits that Innovation Direct™ has attended in recent years include the SHOT Show, the International Home and Housewares Show, the World of Concrete Show, the National Hardware Show, Licensing International, the SEMA and AAPEX Shows and the ERA D2C Convention.

Potential licensees interested in obtaining more information about the **Remote Scope System** and discussing licensing opportunities with respect to the product can contact the Manufacturer Response Department of Innovation Direct™ at (877) 991-0909 ext. 4285 or at MR@innovationdirectonline.com.
