Auto Recoil Oxygen Line Invention In Search of Licensee

An innovative and functional improvement on a widely used and essential piece of medical equipment, the ***Auto Recoil Oxygen Line***, has been developed by Charles Fleming of South Amherst, Ohio. The invention's unique design enables it to greatly facilitate the use of an oxygen concentrator.

The ***Auto Recoil Oxygen Line***'s proprietary features allow it to greatly reduce the risk of injury stemming from tripping over tubing. The product is exceedingly easy to operate. Additionally, the ***Auto Recoil Oxygen Line*** is simple and straightforward to implement on any home oxygen concentrator. Furthermore, it is designed to adapt to differently sized oxygen concentrators and can also easily adapt to being used with hospital oxygen lines. Moreover, the ***Auto Recoil Oxygen Line*** will be competitively priced and made from durable materials, adding to its appeal and making it a wise investment.

The ***Auto Recoil Oxygen Line*** is also in Patent Pending status within the United States Patent and Trademark Office.

Mr. Fleming now seeks a third party licensee to manufacture, market, and distribute the product for him under a royalty agreement. Potential licensees in the medical equipment accessories industry are currently being targeted as candidates to eventually commercialize the ***Auto Recoil Oxygen Line*** on a worldwide basis.

In June 2014, Mr. Fleming contracted Miami, Florida-based product management services leader Innovation Direct™ to represent the ***Auto Recoil Oxygen Line*** to potential licensees for a 2 year period. *Innovation Direct*™ obtains the maximum amount of exposure for the products that it represents through its unique and patented licensing methodology and its participation in multiple and diverse industry-leading trade shows each year. Exhibits that *Innovation Direct*™ has attended in recent years include the SHOT Show, the International Home and Housewares Show, the World of Concrete Show, the National Hardware Show, Licensing International, the SEMA and AAPEX Shows and the ERA D2C Convention.

Potential licensees interested in obtaining more information about the ***Auto Recoil Oxygen Line*** and discussing licensing opportunities with respect to the product can contact the Manufacturer Response Department of *Innovation Direct*™ at (877) 991-0909 ext. 4285 or at MR@innovationdirectonline.com.
