Come To Me Cabinet Invention In Search of Licensee

An innovative new product designed to serve as an essential physical aid, the ***Come To Me Cabinet***, has been developed by Tina Koch of Battle Ground, Washington. The invention's unique design provides its users with a highly functional household accessory that will be of particular value to the physically limited.

The ***Come To Me Cabinet*** eliminates the need for those with physical restrictions to take unnecessary risks in trying to retrieve items from their cabinets. The product allows those who are recovering from surgery to retain a certain level of independence. Additionally, the ***Come To Me Cabinet*** leverages technology to enhance its capabilities. Furthermore, the ***Come To Me Cabinet*** will be competitively priced and made from durable materials, adding to its appeal and making it a wise investment.

The ***Come To Me Cabinet*** is also in Patent Pending status within the United States Patent and Trademark Office.

Mrs. Koch now seeks a third party licensee to manufacture, market, and distribute the product for her under a royalty agreement. Potential licensees in the household accessories industry are currently being targeted as candidates to eventually commercialize the ***Come To Me Cabinet*** on a worldwide basis.

In February 2014, Mrs. Koch contracted Miami, Florida-based product management services leader Innovation Direct™ to represent the ***Come To Me Cabinet*** to potential licensees for a 2 year period.
