

### *Speed Glove Invention In Search of Licensee*

An innovative new product designed to serve as a valuable accessory in food service settings, the *Speed Glove*, has been developed by Danny Offutt of Madisonville, Kentucky. The invention's unique design enables those handling food to be able to put on protective gloves in unprecedentedly easy fashion.

The *Speed Glove* saves time and effort for food service workers when putting on gloves. The product significantly increases the chances of an optimally sanitary environment in a restaurant and fast food setting. Additionally, the *Speed Glove* is easy to implement and begin using. Furthermore, it can be instrumental in preventing illnesses stemming from contamination of food from dirty hands. Moreover, the *Speed Glove* will be competitively priced and made from durable materials, adding to its appeal.

The *Speed Glove* is also in Patent Pending status within the United States Patent and Trademark Office.

Mr. Offutt now seeks a third party licensee to manufacture, market, and distribute the product for him under a royalty agreement. Potential licensees in the food service accessories industry are currently being targeted as candidates to eventually commercialize the *Speed Glove* on a worldwide basis.

In August 2014, Mr. Offutt contracted Miami, Florida-based product management services leader Innovation Direct™ to represent the *Speed Glove* to potential licensees for a 2 year period. Innovation Direct™ obtains the maximum amount of exposure for the products that it represents through its unique and patented licensing methodology and its participation in multiple and diverse industry-leading trade shows each year. Exhibits that Innovation Direct™ has attended in recent years include the SHOT Show, the International Home and Housewares Show, the World of Concrete Show, the National Hardware Show, Licensing International, the SEMA and AAPEX Shows and the ERA D2C Convention.

Potential licensees interested in obtaining more information about the *Speed Glove* and discussing licensing opportunities with respect to the product can contact the Manufacturer Response Department of Innovation Direct™ at (877) 991-0909 ext. 4285 or at [MR@innovationdirectonline.com](mailto:MR@innovationdirectonline.com).
